Written Comments – Lime Lake Outlet Dam

Use this form to share a comment with the Murray County Parks concerning the proposed **Lime Lake outlet dam** modifications, which includes replacing the original concrete spillway and bridge with a rock arch rapids and new bridge. The project may include additional upgrades to the park with public input and we would like to hear your ideas.

Please provide your preferred method of contact (mail or email). *Note that any information provided is public data. While you are not required to provide your contact information, doing so allows Murray County Parks to send you future information regarding this proposed project. If you wish to have your comments discussed at the public informational meeting, please return this form by **January 20, 2021**.
